## About Me

I am a highly motivated individual with a passion for design, learning and constantly improving myself. I love to challenge myself, experimenting with new ideas or different mediums of design. I'm an easy going and fun spirited person who can easily become part of a team and work to collaborate great concepts of work.

2018

### Udemy

User Experience Design Fundamentals

2018

## Work History

### Excite Media

Multidisciplinary Designer

June 2015 - Present

Excite Media is a full service digital agency providing design, development and marketing solutions to it's clients. As a long term employee of Excite I have worked on a range of different projects in varying industries including Web and Graphic Design, UX, UI. Always going above and beyond to exceed the clients expectation.

### Brightfox

Web and Graphic Designer

March 2013 - May 2015

A small but fast paced work environment, Brightfox provided digital solutions to the property industry. My role was to deliver the design collateral in whatever capacity was needed. From traditional print design to web/app design and development and email marketing campaigns.
